RE: EMERGENCY MANAGEMENT TRAINING & SPECILIST SERVICES CC

Dear Sir/madam,

EMTSS (Emergency Management Training and Specialist Services) is an established company (01 July 2011), which focuses on training public and professional candidates in areas of First Aid Class A, Fire Fighting, and Paramedical. We enter the market with years of experience gained through field operations and training provided to communities in Namibia.

We are registered as a Training centre with the Ministry of Health and Social Services to present **Class A First Aid** and with the Ministry of Labour and Social Welfare to present **Fire Fighting, Medical Rescue, First Aid Class A**. We are furthermore also registered with Health Professional Council of Namibia to present **Emergency Care Practitioner Basic [BLS]**. Company Registration Number: **CC/2011/3107**

Our focus is to develop the country with the delivery of education.

Herewith a summary of all the courses presented by EMTSS.

The **First Aid Class A** course is recommended to companies or individuals who need to comply with the Labour Act or who are interested in gaining a comprehensive understanding of common first aid emergencies and how to react to them. After successful completion of the Course a certificate is issued which is valid for 3 (three) years. Regulation 218(6), in Government Gazette no. 1617, 1. August 1997 (in Annex)

Duration	CPR & Choking	AED Module	First Aid Module	BVM Module	Spinal Immobile.	Textbook - Page	Skills Test	Written Test	CPD Points	Certificate Valid
3 DAYS	YES	YES	YES	NO	YES	75	YES	YES	NO	3 YEARS

A **Renewal (aka Refresher)** course is available for candidates that have already previously completed a Class A First Aid Course with us. For the Renewal Course the candidate will need to write a test on the morning the course starts to measure the knowledge retainment of the Class A information. If the test is passed with 70% the candidate can complete the Class A Refresher Course and will receive a 3 (three) year Class A certificate again.

1 DAY	YES	YES	YES	NO	YES	64	YES	YES	NO	3 YEARS

The **Basic First Aid** Course is highly recommended to companies and is only a one-day course. Although this course is not accredited as an official first aid course in Namibia, it still serves the purpose of providing basic first aid training to those who do not have the time to do a 3-day course. Candidates who complete the course receive a certificate valid for 2 (two) years. Please note that this course is aimed at introducing the essentials of first aid.

Duration	CPR & Choking	AED Module	First Aid Module	BVM Module	Textbook - Page	Skills Test	Written Test	CPD Points	Certificate Valid
1 DAY	YES	YES	YES	NO	29	YES	YES	NO	2 YEARS

The **Basic Fire Fighting** Course is also recommended to companies. As a one-day course it is accredited by the Ministry of Labour. Outcome serves to recognize and act immediately during a fire emergency and

evacuation. Candidates will complete a practical skill on how to handle a Fire Extinguisher. Candidates who complete the course receive a certificate for 2 (two) years.

Duration	Fire Blanket	Fire Hoses	Fire Extinguishers	Evacuation	Textbook - Pages	Skills Test	Written Test	CPD Points	Certificate Valid
1 DAY	YES	YES	YES	YES	30	YES	YES	NO	2 YEARS

We offer a **Basic First Aid Course in Children / Toddler First Aid**. This course is recommended for anyone who constantly works with children, e.g. parents, child caregivers, teachers, babysitters or nannies and discusses common emergencies that occur in children. After the course, a certificate of completion will be issued, valid for 2 (two) years.

Duration	CPR & Choking	AED Module	First Aid Module	BVM Module	Textbook - Page	Skills Test	Written Test	CPD Points	Certificate Valid
1 DAY	YES	YES	YES	NO	34	YES	YES	NO	2 YEARS

Other courses that we offer:

The Emergency Care Practitioner - Basic (Paramedical) Course is designed to assess a patient's condition, and to perform such emergency medical procedures as are needed to maintain a patent airway with adequate breathing and cardiovascular circulation until the patient can be transferred to an appropriate destination for advanced medical care or advanced life support arrives on scene of the emergency. Interventions include cardiopulmonary resuscitation, External Automated Defibrillation, controlling severe external bleeding, preventing shock, body immobilization to prevent spinal damage, splinting of fractures, and assisting with childbirth. ECP - Basic are trained in basic life support. The course is presented towards the objectives to achieve a theoretical background (110 Hours) and practical application (50 Hours classroom skills). Assessment is done through theoretical and practical evaluation to test the competence in Cognitive and Psychomotor Domains.
